

Sustainability at Deutsche Bahn AG

InnoTrans 2024

September 24 – 27, 2024 | Berlin

**Strong in
economic,
environmental
and social
responsibility:
Sustainability in
procurement**

Socially responsible supply chains

Sustainability Rating: We create more transparency through sustainability assessments

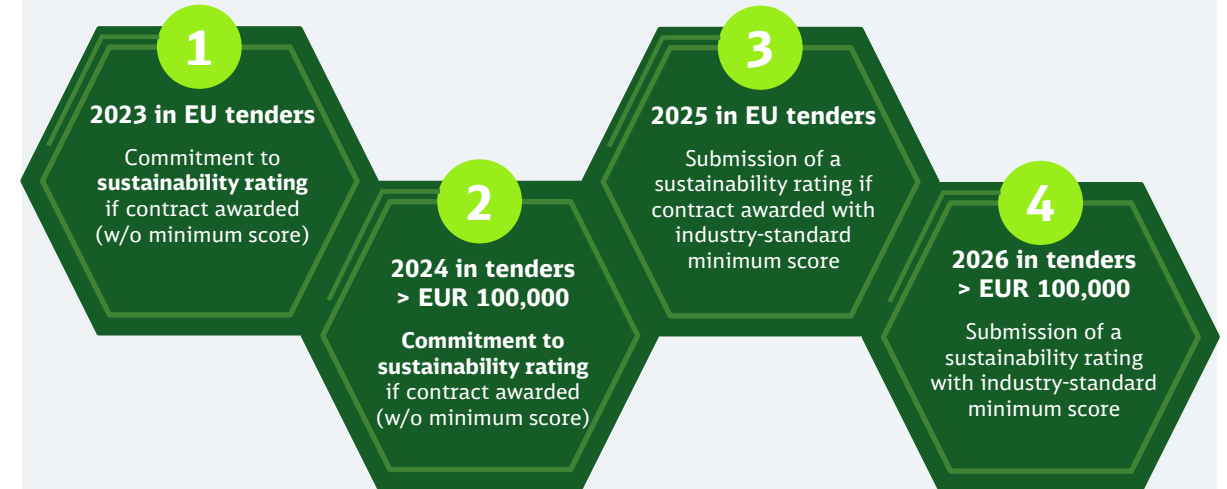

Ambition and targets:

- **Social responsibility as a holistic strategy** at Deutsche Bahn in our interactions with our stakeholders: **society, customers, business partners** and **DB employees**

Our contribution:

- ✓ Transparent supply chain
- ✓ Collaborative sustainability development
- ✓ Long-term use of sustainability standards

Approach:

Project: Sustainable supply chain (LkSG)

- Ensuring **compliance with human rights and environmental due diligence requirements**
- **Establishing a complaints procedure and risk management system** to identify risk and any violations of due diligence obligations under the German Act on Corporate Due Diligence in Supply Chains (LkSG) at an early stage and take countermeasures

Protecting resources starts within procurement at Deutsche Bahn

Buying more recycled material to a complete circular economy by 2040

Our goal:

Full
circular economy
2040

Milestones on route to the circular economy:

Input

By 2030, we will significantly increase the **recycled content of our main resources**, which make up around 80% of our consumption.

2-fold
from 25%
to 45%

Rail steel

3-fold
from 13.3%
to 40%

Ballast

5-fold
from 5.7%
to 30%

Concrete ties

Approach

- **Establishing a transparent data architecture:** Developing a resource inventory and establishing a balance of material flows to gain an overview of resource consumption
- **Sustainable and resource-saving procurement:** Consistent consideration of sustainability criteria in procurement as well as review and adaptation of processes
- **Research and development:** Developing and expanding strategic suppliers for recycled and recyclable products
