# Special Rail Transports

Dedicated transports solution for your  
rolling stock vehicles

**DB Cargo Full Load Solutions transfers your rail vehicles by rail depending on your requirements. If it is not possible on your own wheels - we look for alternative solutions**

We take care of all the logistical tasks required for safe and punctual realisation. DB Cargo Full Load Solutions specializes in European transfer movements as part of test runs, trips to workshops, show trains or damaged wagon trains. Our services also include the provision of coupling wagons for multiple unit trains.
