

## OpenRail Association – Open Source for the Railway Sector

We create an open, autonomous and collaborative space to work together on rail-specific software initiatives. Our goal is to unlock the benefits of open source for the sector, to accelerate **innovation**, increase **efficiency**, and improve **interoperability**.

### Topics – active open source

Maintenance  
e.g. [RCM](#)

Timetable planning  
e.g. [OSRD](#)

Netdesign  
e.g. [Netzgrafik-Editor](#)

Contribute to our projects to collaboratively create solutions for the challenges of digital transformation within the railway sector:
