

DB Connect

Sustainable mobility solutions for cities, companies and customers

Deutsche Bahn (DB) is driving forward the integration of new forms of mobility, such as bike and carsharing, in both local and long-distance transport. DB Connect is developing sustainable mobility solutions for cities, municipalities, companies and private customers to complement environmentally friendly rail transportation.

Bike sharing with DB Call a Bike

DB Call a Bike is Deutsche Bahn's nationwide bike sharing service - and one of the largest and most successful in Germany. With over 14,500 rental bikes, cyclists can always travel comfortably and flexibly. Deutsche Bahn's rental bikes are available in over 80 cities and municipalities across Germany.

Flinkster - carsharing in over 250 cities

The Flinkster network is an association of over 25 carsharing partners in Germany, Austria and Italy. With no ongoing costs, customers can flexibly access one of 2,600 carsharing vehicles near a train station or in their area.

For business customers, Flinkster offers cost-effective mobility at their destination.

Bonvoyo - Deutsche Bahn's mobility budget

Mobility as a benefit: With Bonvoyo, companies provide their employees with an individual budget for private trips and commuting. The mobility budget can be used flexibly for all means of transport - whether public transport, train, bicycle or cab. All billing und taxation processes are fully automated.
