

Our strong Procurement – facts and figures

Strong year 2023 – and we keep on rolling!

Approx. EUR 27,4 billion in goods and services

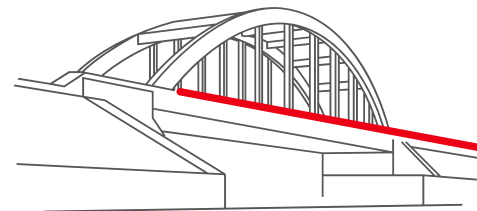

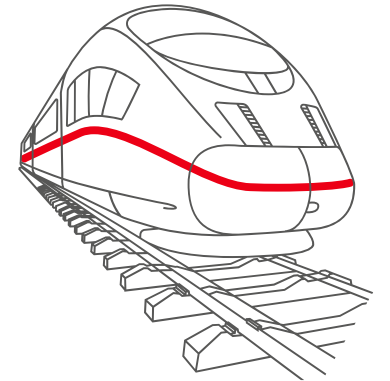

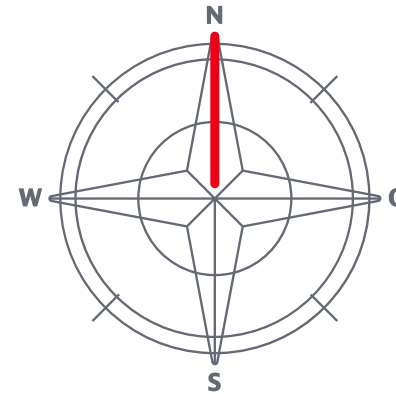

Over 22,000 suppliers

Around 1.3 million orders

1,330 employees

**Strong for our
partners:**

our vision

We are essential for the economic strength of the DB Group.

Trustworthy and reliable supplier partnerships secure the future of a strong railway.

Integrated value drivers

Focused sustainability

Our vision
Ensure DB's security of supply with strong partners

Intuitive procurement

We make procurement simple and intuitive.

This simplifies access for suppliers.

We make a significant contribution to achieving a CO2-free railway by 2040.

A sustainable supplier landscape will become our standard.

Our Exhibit: Screw Foundation by KRINNER Schraubfundamente GmbH

ECOLOGICAL

Reducing noise and vibration emissions during installation

EFFICIENT

3 to 5 times faster to install than concrete foundations

VERSATILE

Can be installed regardless of weather and soil condition

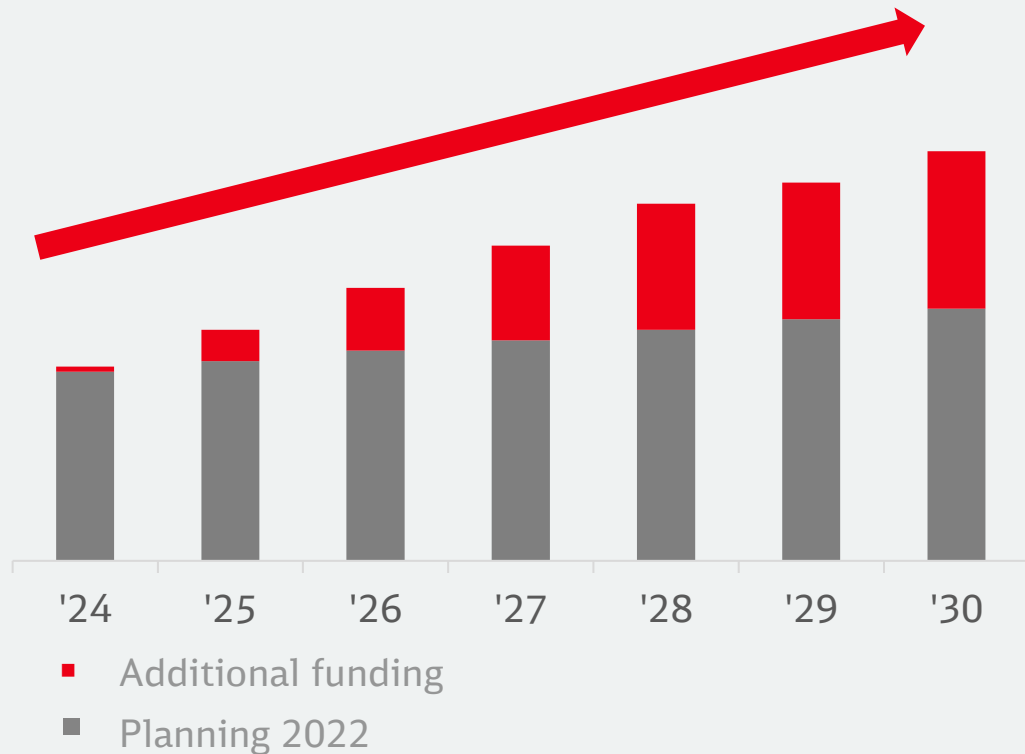

Investment ramp-up

In the future, more capacity will be required from existing and new suppliers.

Purchasing volume (infrastructure procurement)

Comparison of quantity demand to historically achieved peak quantities

Tracks

+20%

Switches

+50%

Catenaries

+110%

SMaRT – our innovative supplier management

Strong in Asia:

**International
Procurement
Office Asia**

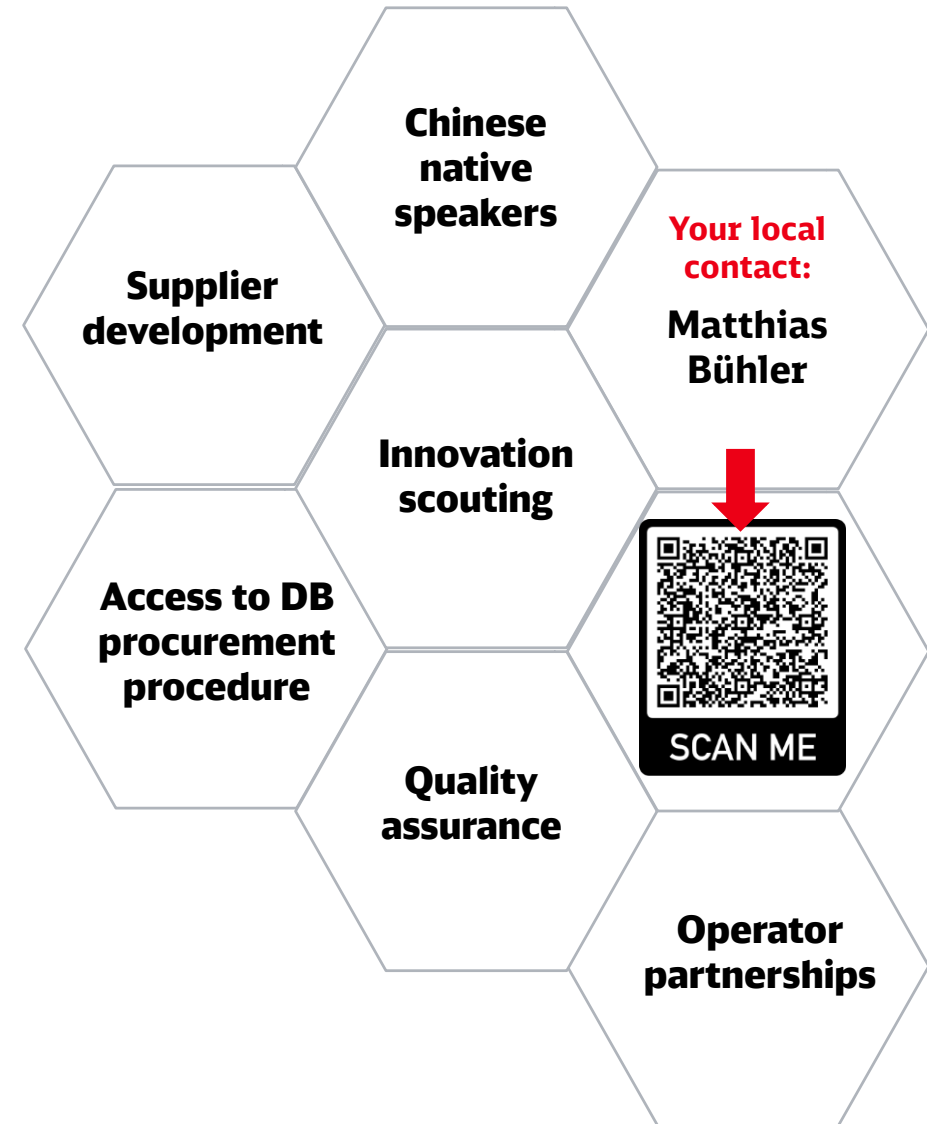

DB's International Procurement Office (IPO) Asia

The IPO is a one-stop shop for Asian companies looking to work on successful projects with Deutsche Bahn AG.

Come to enrich us with your sustainable products, services and innovations.

We will explain how you can become our business partner and will support you through the entire procurement process.

**Strong in online
collaboration:**

DB Marktplatz

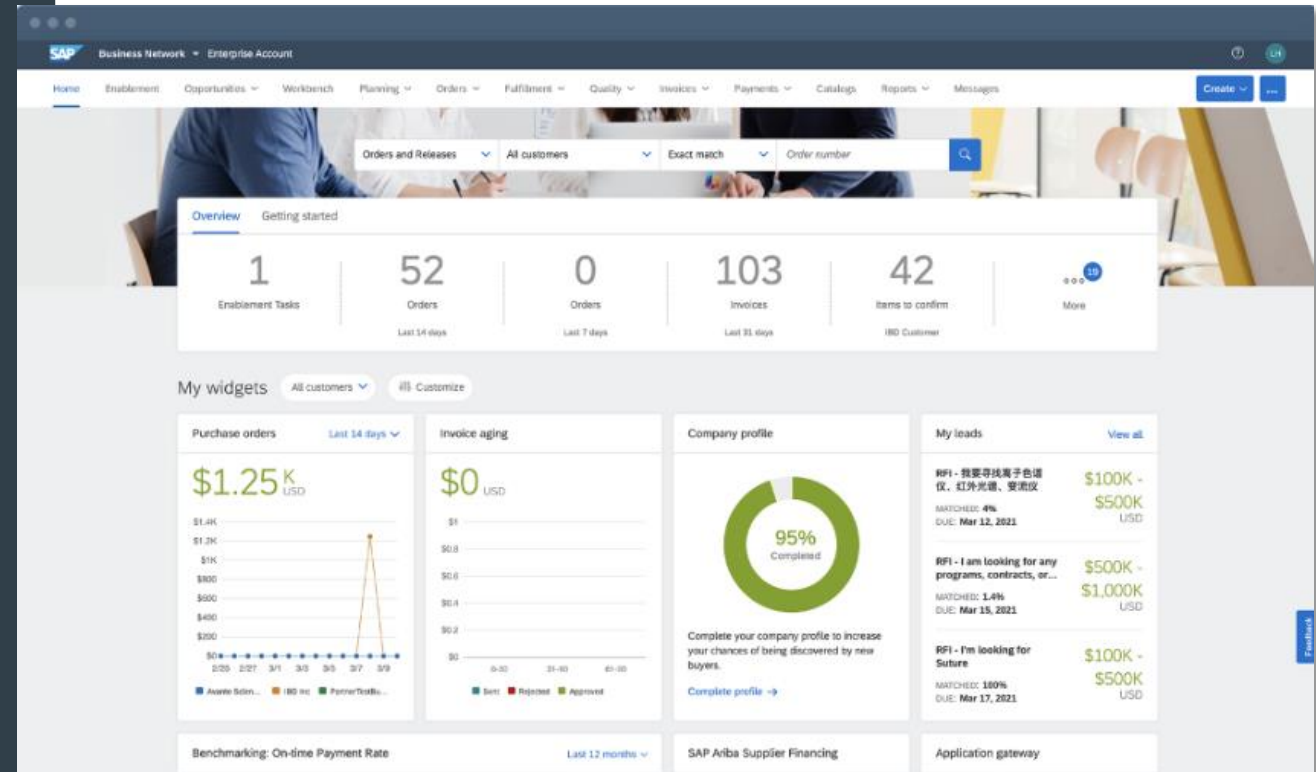

Digitalization with the SAP Business Network

The **SAP Business Network** for the digital exchange of documents between customers and suppliers

**Contact and
information:**

**Strong in
economic,
environmental
and social
responsibility:**

**Sustainability in
procurement**

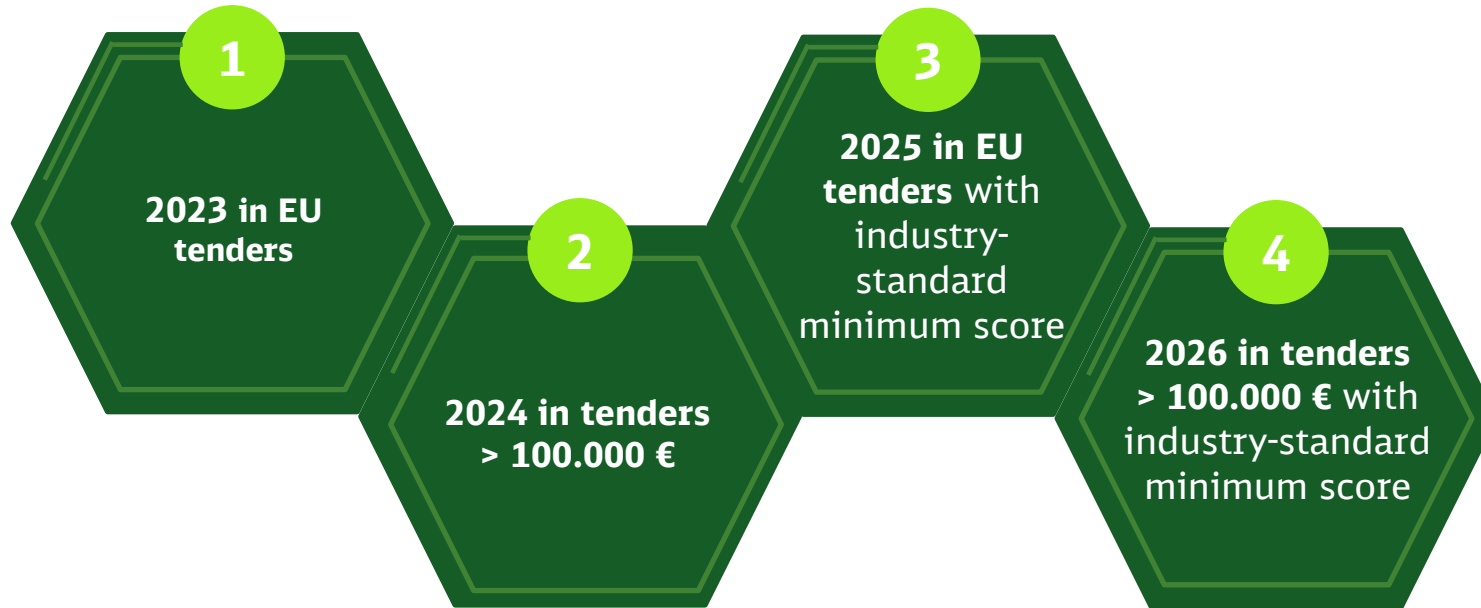

Sustainability Rating: We create more transparency through sustainable supplier assessments

Sustainable supply chain ("LkSG")

- Ensuring **compliance with human rights and environmental due diligence requirements**
- **Establishing a complaints procedure and risk management system** to identify risk and any violations of due diligence obligations under the German Act on Corporate Due Diligence in Supply Chains (LkSG) at an early stage and take countermeasures

Collaborative sustainability development

Resource conservation starts in Procurement – stronger together with our suppliers!

Our goal:

**Complete
circular economy
2040**

Milestones on route to a circular economy:

Input

Increase the recycling rate of our primary resources

x2

Rail steel

x3

Ballast

x5

Concrete ties

Developing a resource inventory

ESG criteria in procurement

Developing and expanding strategic suppliers for recycled and recyclable products

For more transparency and trust: Reporting via the BKMS whistleblower system

The LkSG complaint procedure for reporting human rights and environmental risks and violations

Working together against corruption and economic crime, as well as human rights violation and environmental damage

Help us fight corruption and economic crime, as well as human rights violation and environmental damage. Every indication of possible crimes and other reportable violations is important and helps to prevent losses. With your support, we can effectively safeguard the dependability and integrity of our group, thereby also ensuring our success.

In order to guarantee accessibility to every employee of our group as well as our business partners and customers regardless of time or place, this electronic whistleblower system was installed as a supplement to the existing reporting channels, such as DB Group Compliance or the attorney of trust. Here, you can report situations with inclusion of your name or on an anonymous basis.

We have established this whistleblower system for reporting on topics that are especially concerned with corruption, economic crimes, human rights violations and environmental damages. Reports that refer to topics outside of these categories will not be further pursued via this system.

This whistleblower system may not be used to knowingly submit false or slanderous statements or information. Reports that denounce other persons or defame them against better judgement can give rise to consequences under civil or criminal law.

We would like to expressly encourage you to include your name when submitting your report. Whether you do so or not, we ask that you establish a secured postbox. This simplifies your communication with us. Your reports will be handled strictly confidentially.

You can find additional information in this regard on this page under "Data protection information".
